APRN/PA Pediatric Pharmacology
and Law Update 2020
An on-demand conference

Self-paced education modules available online
Oct. 2 – Dec. 2, 2020

Who Should Attend

Nurse practitioners, nurse anesthetists, clinical nurse specialists, physician assistants, physicians, registered nurses and other professionals who work with children will benefit from attending this conference.

Continuing Education

This program is pending approval for CME credit. Conference organizers plan to request 7 AAPA Category 1 credits from the Physician Assistant Review panel.

This program is pending approval for 6 contact hours of pharmacology CE of which one hour is Schedule II pharmacology specific and one additional hour of Category A CE Law is available.

Note: The CE/CME evaluation will be available until Dec. 31, 2020 via CME Tracker. At the closure of this period, no CE/CME will be awarded and certificates cannot be reprinted.

Akron Children’s Hospital is an approved provider of continuing nursing education by the Ohio Nurses Association (OBN-001-91) an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation. Providers should only claim credit to commensurate with the extent of their participation in the activity.

About the On-Demand Conference

This conference is an on-demand, online conference. There are no in-person sessions.

Registrants will be sent a link to access presentations from Oct. 2 - Dec. 2, 2020. The presentation link will allow participants to listen to presentations at their convenience - all at once or intermittently.

Transgender Medicine

Presented by: Crystal Cole, MD

- Describe various medications used in transgender therapy regimes.
- Identify potential side effects of the medications.
- Discuss potential impacts to adolescent development.

Eye Medications

Presented by: Richard Hertle, MD

- Describe eye conditions that can be safely treated in the primary care setting and what pharmacologic treatments are recommended.
- Distinguish when a child needs to be treated in the acute care setting with an ophthalmology referral and the pharmacological treatments needed.
- Identify which eye conditions should not be treated pharmacologically.

Scheduled II/Blocks Pain Management

Presented by: Elizabeth “Betsy” Kendrick, APRN-CNS/CNP

- Differentiate the impact of regional blocks on the use of opiates with surgery and their implications.
- Discuss parental/guardian refusal of opiates for post-operative pain control with no prior history of opiate abuse.
- Identify alternative methods, including prescriptive options, for pain management.

Dermatology

Presented by: Bernadette Pejic, APRN-CNP

- Discuss the pharmacologic treatment of hemangiomas.
- Compare topical and systemic treatments for atopic dermatitis.
- Discuss new pharmacological treatments of pediatric dermatologic conditions.

Healthy Weight

Presented by: Marnie Walston, MD

- Discuss parameters of pediatric weight concerns that will be impacted by pharmacological intervention.
- Identify the pharmacological regime typically used for a child with an elevated BMI.
- Examine the impact of these medications on primary care, growth and development.

Post Traumatic Brain Injury (TBI)

Presented by: Christopher Najarian, MD

- Determine the aspects of a traumatic brain injury that will need pharmacologic intervention.
- Identify the medications that are typically used in post TBI care.
- Outline the weaning schedule of the medications as the TBI improves.

Category A Law

Presented by: Richard Kasmer, PharmD, JD

- Examine when and how to use OARRS reports in accordance with Ohio law.
- Describe legal considerations regarding diversion and Start Talking forms (Schedule II).
- Discuss the legal implications for parents and children/teens who disagree on the treatment plan.

Registration

Registration is open from Sept. 2 – Oct. 1, 2020.
